

Post-Results Services for GCSEs and other Level 2 courses (summer 2023)

- **Concerned about a result?** *Reviews of Marking (RoM)*
- **Want to see your paper(s)?** *Access to Scripts (ATS)*

All post-results services are charge PER PAPER NOT PER SUBJECT (Most subjects will have a single result on your statement of results but will have had two or more separate papers in most cases)

Reviews of Marking (RoM)

- In a **review of marking** a second examiner will **review** the exam paper to check for any errors in the application of the mark scheme by the original examiner and that any academic judgement that has been used is appropriate. The reviewer can only change marks if they identify clear marking errors. (This is not a 're-mark' as the focus is on the accuracy of marking. Your script is **not** marked again).
- **Marks and grades can be raised, lowered or stay the same** (most do not change during a review).
- A **clerical check** is done for all reviewed papers to ensure all sections were marked and that the marks were added up and inputted correctly.
- If the **grade** changes you will be issued a refund for the RoM service.
- **Only for external exams.** Non-examined Assessments (NEAs) and coursework units cannot be reviewed as they have already been moderated by the exam board.

If you only want to check that all sections were marked & added up correctly

If you need an Edexcel Paper reviewing quickly

If you want to review the marking of any external exams (not for NEA)
